

# Monday, July 2nd

## Session 1A

- 11:30 **Daniela Keller, Maarten J. van Strien, Rolf Holderegger**  
Dispersal of *Conagrion mercuriale* in a fragmented landscape as characterised with landscape genetic methods
- 11:52 **Franz-Josef Schiel**  
Larval development of *Aeshna affinis* (Odonata: Aeshnidae) as an adaptation to temporary waters
- 12:14 **Jürgen Ott**  
Alien Invasive Species (AIS) – a new and increasing threat for dragonflies?
- 12:36 **Phillip Watts, David Thompson**  
Roles of ecological and genetic factors in determining fitness in an odonate population

## Session 1B

- 15:00 **Dolf Ramaker**  
High speed filming of Odonates with emphasis on the ovipositioning of *Sympetrum vulgatum*
- 15:22 **Otakar Holuša, Kateřina Holušová**  
Notes on the diurnal activity of two eastern *Cordulegaster* species of *boltonii*-group – *C. heros* and *C. pictus*
- 15:44 **Workshop moderated by Jürgen Ott**  
Invasion of *Leucorrhinia pectoralis* in Europe

## Session 1C (poster section)

- 17:00 **Dejan Kulijer, Jovica Sjeničić, Iva Miljević, Slaven Filipović, Dario Marić, Goran Topić**  
Mapping dragonfly distribution in Bosnia and Herzegovina: First results of the dragonfly research group
- Dejan Kulijer, Richard Baker, Andrzej Zawal**  
Preliminary report on parasitism of Odonata by water mites from Bosnia and Herzegovina
- Dušan Šacha**  
Crowdsourcing and its role in odonatological research (example from Slovakia)
- Geert De Knijf, Cédric Vanappelghem, Heidi Demolder**  
Contribution to the dragonfly fauna of Montenegro
- Lena Kulić, Marija Gajić, Katarina Erić**  
Dragonfly fauna (Odonata) of the Sokobanjska Moravica River (E Serbia)
- Marina Vilenica**  
Dragonfly (Insecta, Odonata) fauna of Banovina region, Croatia
- Matteo Elio Siesa, Gentile Francesco Ficetola, Emilio Padoa-Schioppa, Jürgen Ott, Fiorenza De Bernardi**  
Impact of the invasive alien crayfish *Procambarus clarkii* on species with complex life cycles: a case study with odonates
- Otakar Holuša, Kateřina Holušová**  
Current state of knowledge of occurrence of *Cordulegaster heros* Theischinger (Odonata, Cordulegastridae) in Central Europe
- Otakar Holuša, Kateřina Holušová**  
Changes in fauna of Odonata in the Czech Republic in recent years
- Saša Rajkov, Andrea Arandžević**  
Dragonflies of urban and suburban areas of Novi Sad - an insight into surrounding odonate diversity
- Xavier Houard, Hélène Perier, Samuel Jolivet**  
The French action plan for the conservation of dragonflies: situation and prospects after two years of implementation

## Tuesday, July 3rd

### Session 2A

- 9:30 **Arco van Strien, Tim Termaat, Marijn Prins, Vincent Kalkman**  
A supranational trend for *Calopteryx splendens* created from opportunistic data
- 9:52 **Florian Weihrauch**  
Riding with the foehn: the impact of transalpine migration on the chorology of *Orthetrum albistylum* in Europe
- 10:14 **Sönke Hardersen**  
Odonatology in Italy - the current situation
- 10:36 **Vincent Kalkman**  
The global distribution of European dragonflies

### Session 2B

- 11:30 **Ali Šalamun, Alja Pirnat, Damjan Vinko**  
Dragonfly fauna of Bela Krajina, SE Slovenia
- 11:52 **Elena Dyatlova**  
Dragonflies of Moldova, second communication
- 12:14 **Miloš Jovič, Ljiljana Anđus**  
Dragonflies of Belgrade (Serbia) - An overview of the last century
- 12:36 **Elena Dyatlova**  
Dragonflies of the Black Forest and its surroundings (Kirovohrads'ka Oblast', Ukraine)

### Session 2C

- 15:00 **Anne-Laure Gourmand, Cédric Vaneppeghem**  
STELI - the French dragonfly monitoring scheme
- 15:22 **Damjan Vinko, Nina Erbida, Urška Ferletič, Nada Kogovšek, Ana Slavikovski**  
Slovene biological spring camp's contribution to the knowledge of Dragonfly fauna (Insecta, Odonata) of East Balkans
- 15:44 **Phillippe Lambret**  
When to monitor Odonata? Different answers from activity and abundance patterns
- 16:06 **Damjan Vinko, Saša Rajkov**  
The story of BOOM

### Session 2D (OdoCinema)

- 17:00 **René Manger, Ronald van Seijen**  
Ten months in the life of *Sympecma paedisca* in The Netherlands
- 17:30 **Georg Ruppell, Dagmar Hilfert Ruppell**  
Jewelwings

## Thursday, July 5th

### Session 3A

- 9:30 **Jean-Pierre Boudot**  
Variation in abundance, synchronism and sex ratio at emergence in *Epitheca bimaculata* (Charpentier, 1825) in NE France
- 9:52 **Petra Éva Szalay, Szilvia Szeghalmy, Olga Kis, László József Szabó, Tibor Jakab, Margit Miskolczi, Albert Tóth, Attila Fazekas, György Dévai**  
Comparative morphometric wing mark analysis of *Calopteryx splendens* males collected in NE-Hungary
- 10:14 **Sónia Ferreira, David Thompson, Paulo Célio Alves, José Carlos Brito, Phill Watts**  
Phylogeographic structure of *Coenagrion mercuriale*
- 10:36 **Sönke Hardersen, Roberto Sacchi**  
Wing length allometry in Odonata – differences between families and in relation to migratory behavior

### Session 3B

- 11:30 **Geert De Knijf**  
The European Habitats Directive and dragonflies: more than the Annex species!
- 11:52 **Jürgen Ott, Klaus-Jürgen Conze**  
The new German red list of dragonflies – procedure and results
- 12:14 **Klaus-Jürgen Conze**  
Conservation of dragonflies in Northrhine-Westphalia, Germany

### Session 3C (OdoCinema)

- 14:30 **Georg Rüppell, Dagmar Hilfert Rüppell**  
Behaviour of Odonates
- 15:10 **Svetozar Santovac**  
Odonata of Vojvodina
- 15:40 **Directed and written by Kurt Mündl (ORF and Power of Earth co-production)**  
Sky Hunters - The World of Dragonfly

### Session 3D

- 17:00 **Congress Forum**
